Tuomarin sanoja

“I would like to thank the Jack Russell Club of Finland for its very kind invitation to judge this show. I was quite pleased with the quality of the dogs overall. I especially thought the youngsters were very good, with some quality heads, balanced outlines and good movement. However, breeders will need to be vigilant and take care to maintain some length of leg and pay attention to breeding sound straight front legs with good forechest.

My thanks to the exhibitors for their entry and excellent sportsmanship on the day. Handling was generally good, but this smart breed can really move out when built correctly, so show them off to their best advantage by moving them at a slightly quicker speed. I'm sure you will be very pleased with the result.

Thank you to my steward, **Minna Virtanen** and writer **Minna Tallberg** for their hard work on the day. I wish the breeders and exhibitors every success with their dogs and the club all the very best for its future endeavours.“
